Why is this business appropriate and consistent with the business climate of the Village of Ellenville and/or surrounding areas?

The local scrap is taken to Kingston or Cuddebackville. Large quantities of saleable material are evident along every backroad and highway in Wawarsing. Keep it local, and feed our economy here.

How many jobs will this project create?

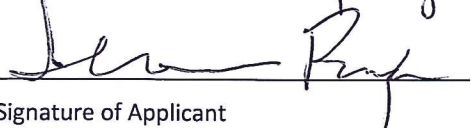

1 20HR Office Position; 3 Full Time YARD & Driver Positions; 1 Full Time Marketing Associate

What gives you the confidence this is a project you can undertake successfully? Do you have any partners? If yes, please identify them.

I know the money to be made in recycling metals. With the tightening of trade with China, the market is only getting better for locally sourced materials

Tell us why you believe you can open by December 2018?

I have several potential locations. I have one person I know that is a dependable, sober worker. The area needs new, clean and environmentally positive projects. I have been preparing for four years! Ready to fly!
