Added Security Features

We thought you'd like to know why we're making this change. Our goal is to provide you with the best value, technology and support. As security threats and technology rapidly evolve, we continue to innovate solutions to support older software and platforms. To help you manage and protect your site, you'll soon be receiving a Free Website Security tool in your account, powered by Sucuri. Using this security tool, you will be able to monitor and scan the health of your site on demand. Look for it in your GoDaddy "My Account" dashboard in Feb. 2018.*

Industry-Leading Performance

We are also investing significant development resources to continue to deliver industry leading load times and maintain 99.99% uptime. We're proud to share that GoDaddy has been listed as a top performing web host by Netcraft in each of the last 12 months.

*Disclaimer: The Sucuri Website Security tool will be added to your account free of charge for five (5) years or for the remainder of your GoDaddy web hosting plan, whichever is less. If you choose not to use this free security tool it will remain available in your account should you choose to use it. This free tool will not automatically renew at the end of its term.
