Good morning Mr. Redding,

Our Regional Director approved the request to release Maintenance & Jurisdiction to Ulster County with the following conditions:

- 1 - DOT will retain 30 feet from the center line of Route 209.
- 2- Ulster County would need to be willing to grant easements to utility companies prior to any conveyance to the adjoining owner.
- 3- If the requestor needs to do any future work in the State right-of-way, the application of a Highway Work Permit will be required.

In order to progress this case to our Property Executive Review Group (PERG), we require in writing from Ulster County, expressed willingness to convey the property to the requestor should the Department release maintenance and jurisdiction, along with a resolution. Mr. Doyle of the Ulster County Planning Department has been advised of the documents required. Once they are received we will continue to progress this request.

Best,
