

This report includes a spreadsheet of the events BP facilitated at 101 Enterprise West during the period of June 2021 - October 2021. This is being submitted with our invoice(s) now that we have completed the agreed upon number of events stated in our contract with UC/UCEDA. Please note that each event entailed guiding hosts through the agreement process with UC/UCEDA and included advising on insurance and permit requirements, managing production needs, event set up, supervising preparation and post-event cleaning of the Lot, and maintaining the security of the building during events, as well as some promotion and acting as liaison between hosts and UC/UCEDA.
