

Proposed Term Sheet for Ulster County Community College Sublease (the “Sublease”)
Workforce Innovation Center @ iPark 87
 February __, 2024

Ulster County Community College wishes to participate as an Educational Partner in the Ulster County Workforce Innovation Center at iPark 87. The Center is proposed to be a multi-organizational partnership between Education, Government and Business Partners that seeks to create effective programs and pipelines to make high-quality jobs in emerging sectors accessible to County residents. Educational Partners will have a physical presence at the Center in addition to a role as members of an overall governing board that will direct planning, design and ongoing implementation of programming. In order to advance the creation of the Center, UCEDA is considering entering into a lease with National Resources (the owner) to reserve space to house administrative and programming operations at iPark 87. The following terms are being offered to Ulster County Community College as an Educational Partner to reserve space prior to formal commitment via a Sublease, which will be negotiated by all parties in good faith based on the terms below:

PROPOSED TERMS	NR > UCEDA Lease	UCEDA > Ulster County Community College Sublease/Direct Lease with iPark 87, LLC
